MR. SCOTT CHOSEN.

He Again Heads the Third District Committee.

The Third District Democratic Committee met here Saturday and organized by the election of the following officers: Chairman, E. L. C. Scott, of Hanover; Secretary, Clyde W. Saunders, of Richmond; Treasurer, Simon Solomon, of Henrico.

The meeting was held in the office of Mr. Scott, at the State Library and was called to order by Mr. John J. Lynch, of this city. All the members were present.

The committee last night authorized Colonel Cutshaw to communicate with the Secretary of War, at Washington, with the view to getting authority to construct dykes in the river for the purpose of aiding in the work of dredging.

DON'T MEASURE UP.

New City Dredge Has Not Yet Met the Requirements.

The Committee on James River Improvement is having some trouble with the new city dredge, recently purchased for the work of deepening the harbor here and up to this time, the tests of its capacity have not been satisfactory. The company furnishing the machine, claim that this is owing to the condition of the bed of the river and that it should be tested on more favorable ground.

The committee last night authorized Colonel Cutshaw to communicate with the Secretary of War, at Washington, with the view to getting authority to construct dykes in the river for the purpose of aiding in the work of dredging.

Stuart's Equestrian Statue to Stand at Lombardy and Franklin Streets.

THE COUNCIL YET TO RATIFY

This Is Regarded as Mere Form. Only One Condition Laid Down.

The Stuart equestrian statue will stand at the intersection of Lombardy and Franklin Streets. The Executive Committee of the Veteran Cavalry Association reached this decision Monday night, and work toward the erection of the enduring memorial to the man who gave his life for Richmond, will be pushed with all practicable speed.

The committee will go before the new Council at its September meeting and present its recommendation for the approval of the Council, which has appropriated \$20,000 for the monument, provided it is located within the city. It is anticipated that the Council will readily ratify the selection. The Monument Association will erect the base and pedestal, which will be of Virginia granite.

The erection of the statue will be the fulfillment by the city of the promise made by ordinance of May 11, 1864, to Mrs. Stuart, widow of the cavalrman, whereby in consideration of her allowing the body of her husband to rest here under its care the city would "commemorate by a suitable monument its gratitude and

laboring with zeal and intelligence to correct the evils which have depreciated your stock and impaired public confidence in the credit of the company.

That they have to move with great care in the discharge of their duties you can well appreciate, and the correction of evils will have to be made gradually and in such a manner as to secure results with a minimum of friction. Mr. Walters, as president of the Atlantic Coast Line, and Mr. Spencer, of the Southern Railway, have learned the necessity of economical management of corporations and will doubtless take into consideration the duties and the compensation of all employees of the Virginia-Carolina Chemical Company so that compensation in the future will be commensurate with the duties performed. They will in our opinion head the wishes of many of the stockholders who have asked for an examination into the purchases of various properties, and when those purchases are not likely to rebound to the profit of the company will find a means of ridding the company of them, and especially of such as are a charge upon the treasury.

Heretofore the directors have elected all officers of the company and fixed their compensation. In selecting officers they have elected members of their own board, so that some of the directors have also been officers reporting to a board of which they were members and having their action as officers approved by the board, an arrangement subversive in our opinion of the interests of the company. This evil has been corrected. It has been a custom of the board of

MEETING OF DALMO KLAN

Quiet Marriage Yesterday Evening—Alderman John Moore Is Better.

Manchester Bureau, Times-Dispatch. No. 102 Hull Street.

Upper Hull Street bore an air of excitement last night, caused by a row at Cowardin Avenue and Hull Street, between Bennie Chandler and D. L. Robertson, and in which a brick got mixed up. Robertson caught the brick in his eye. He saw it coming, but will not be able to see anything for some time to come.

Officer Moore arrested Chandler, and Squire Jordan will hear the story to-day. Alderman Moore Better.

Alderman John Moore, one of the most popular of citizens, who has been sick for some time, is much better. His physician says he will be able to be back to business in a few days. His illness was of much consequence to his friends, who are glad to hear of his recovery.

Dalmo Klan.

The Dalmo Klan Society will meet in regular session at Toney's Hall to-night at 8 o'clock. It is reported that several pilgrims will venture over the sands, and

W. L. DOUGLAS \$3.50 & \$2.50 SHOES

Brookton Leads the Shoe Fashions of the World.

W. L. Douglas makes and sells more men's \$3.50 shoes than any other manufacturer in the world.

The reason W. L. Douglas \$3.50 shoes are the greatest sellers in the world, is, they are made of the highest grade imported and domestic leathers; they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other \$3.50 shoes.

2,473,464

Pairs of Fine Shoes were made and sold by W. L. Douglas in 1903.

W. L. Douglas Shoes are made of the following leathers:

HEYL'S FRENCH PATENT CALF, DOUGLAS VIOG KID, PAT. CORONA COLT SKIN, AC-ME CALF, FINE CALF, IMPERIAL HORSE ENAMEL, RUSSIA CALF, ETC.

No matter where you live, you can get W. L. Douglas shoes; they are sold by shoe dealers everywhere. W. L. Douglas \$5.00, \$4.00, \$3.50, \$3.00, \$2.50 and \$2.00 shoes for men; \$2.50, \$2.00 and \$1.75 for boys. W. L. Douglas name and price stamped on bottom guarantees their value and protects you against high prices. Take no substitute.

In W. L. Douglas men's \$3.50 shoe stores, you will find all the new and popular styles; narrow, medium and wide toes, in all widths. One pair will outwear two pairs of ordinary \$3.50 shoes. Also W. L. Douglas High Grade Boys Shoes, \$2.00 and \$1.75.

W. L. Douglas uses Corona Calfskin in his \$3.50 shoes. Corona Calf is considered everywhere to be the finest Patent Leather produced.

Many brilliant hunters have been developed at the summer shows throughout Northern Virginia, and some of these are going to make the old favorites hostile for their laurels. The field of great and seasoned hunters at the Richmond show promises to be the greatest ever seen in an arena. Courtland H. Smith, with the greatest string of hunters in America, will bring them all to the Richmond show. He was not present last year. Among other horses which are winning ribbons this year are the Henderson entries of last year, Hawatha and Bo-Bar.

PROSPECT PLEASING.

Messrs. Williams and Davis Tell of the Chemical's Action.

Messrs. Charles U. Williams and W. B. Davis, who represented certain stockholders of the Virginia-Carolina Chemical Company, at the recent annual meeting have sent out a letter reporting upon the changed policy of the company and expressing satisfaction with the results attained and the present management. The full text of their statement follows: Gentlemen—As your representatives, we met by appointment on the 18th instant, Messrs. Walters, Spencer, and Stotesbury, these gentlemen constituting the finance committee of the board of directors of the Virginia-Carolina Chemical Company, and they also held proxies for a large majority of the stock of said company.

It is scarcely necessary to say that the gentlemen named are experienced men of high personal character and that we believe that they have labored and are

directors to ask of the stockholders their proxies before any meeting of stockholders, and it has been unfortunately, we think, a custom of a large number of stockholders to acquiesce in this course, so that this remarkable state of affairs has existed, some of the most important officers of the company elected by a board of which they were members, their salaries fixed by the board, their reports made to the board, and their management and to themselves vote for the approval of their course however unwise.

This last evil can only be cured by the stockholders themselves, who should select their proxies from among their own number, excluding all who occupy positions as directors or officers, whose conduct should be the subject of careful investigation at each meeting. Finally we assure the stockholders that in our opinion the condition of the company is better than it has been for some time, and from the reform we expect in the management we look to a renewal of its prosperity at no distant day. Respectfully submitted, W. B. DAVIS, CHAS. U. WILLIAMS.

Mr. James Moore, brother of Policeman Mike Moore, formerly of Manchester, now of Mansfield, O., where he holds a responsible position with a manufacturing plant, is here on a visit to his relatives and friends. He is recuperating from an injury he received at Terra Haute, some time ago. Mr. Moore will be here for several days.

Peters—Odell.

At 6:30 o'clock yesterday evening Miss Mildred E. Odell and Mr. John L. Peters were married by Rev. Dr. Baldy, at the residence of the bride's sister, Mrs. J. T. Robinson, Twelfth and Perry Streets.

This couple left immediately after the marriage for the North. They will make their home in New York.

Mrs. Peters is a popular young lady of this city. Her husband is a popular business man of New York.

Personals and Briefs.

A Parker-Davis-Lamb club will be formed at Tony's Hall Saturday night.

The Almshouse and County Committees will meet to-night at 7 o'clock.

The Ladies' Missionary Society of Bainbridge Street Church will meet to-morrow afternoon at 5 o'clock at the home of Mrs. B. A. Hancock.

Miss Maud Pittman is visiting friends at West Appomattox.

Miss Mattie Lewis, of Gloucester, is visiting Miss Emma Bailey.

WAS A DAY OF GRIND.

Justice John Had a Long and Tedious Docket.

A tedious docket confronted Justice John yesterday. Most of the cases were of minor importance, and the justice used the laws in volume 9 to read them.

Patent Jenkins, colored, was charged with taking \$2 from James McManning, also colored. There was not the slightest evidence against the accused, and he was dismissed.

Emma Knight, colored, went to jail in default of \$50 fine for hitting Margaret Glasgow with a chair round.

Jennie Clark, colored, paid \$2.50 for being too gay on the streets.

Edward Buck was dismissed on the charge of assaulting Isaac Cohen.

Albert Eggleston was dismissed of the charge of cursing and striking at Mattie Carter.

Lella Davis got \$5 or thirty days for being on the streets late at night.

John Robinson, not the circus man, paid \$5.00 for being drunk and disorderly. A few drunks for the first time were let off.

MANN LAW FELT.

Decrease in Internal Revenue Collections Ascribed to It.

The deputy collector of internal revenue, Mr. Robert McCandlish, yesterday gave out a statement of internal revenue collections for July, 1904.

List: \$25.68; beer tax, \$7.15; spirits, \$69.31; cigars and cigarettes, \$117,087.72; tobacco, \$68,299.58; special taxes, \$22,619.31; total, \$264,241.

Collections for July, 1903, were \$22,701, a small decrease for July, 1904. This decrease is due to the fact that the amount derived from special taxes in the district has decreased materially, which in turn is attributed to the operation of the new liquor law.

The receipts from cigar stamps also show a decrease, but the output of manufacturing tobacco shows a considerable increase.

Repairing Big Washout.

The retaining wall in front of the Mutual Assurance Society's steel structure now going up at Ninth and Main Streets, has been completed in the Main Street level, and now being repaired. Earth is being dumped into the hole which has extended almost to the tracks, and it is being rammed down so hard that there will be no sinking after it has been filled.

Meanwhile the work of constructing the steel frame for the great towering structure is advancing with surprising rapidity, having reached the fourth floor above the Main Street level.

Grace Street Impassable.

Work of paving Grace Street westward from Ninth is progressing slowly. The street for four blocks is staked on each side with asphalt blocks, and three blocks are torn up in the work of laying the blocks or grading the street bed preparatory to laying them. Meanwhile the street is choked with blocks and rendered impassable by vehicles for several squares.

Increased Postal Receipts.

Cashier W. McKim Marriott, of the general postoffice of this city, yesterday gave out a comparative statement of the receipts of the postoffice for the month of July, 1904, and that of 1903.

Receipts from stamp sales and other sources for July, 1904, \$20,449.23.

Receipts from stamp sales and other sources for July, 1903, \$23,714.10.

Increase for July, 1904, \$1,664.32.

Clear The Road

Many kinds of Food tend to clog the system and obstruct the natural functions of the body just as fallen trees across a roadway impede natural travel.

A GOVERNMENT report shows GRAPE-NUTS food nearly twice as soluble as any other cereal food, prepared or unprepared, and THIRTEEN TIMES AS SOLUBLE AS OATMEAL. That means available nourishment prepared so the weakest stomach can assimilate it without effort.

Not only the most easily digested food in the world and containing more available nourishment than any other, GRAPE-NUTS food is also especially prepared to rebuild and restore the daily wear and tear on Brain and Nerve centres. It's the Brain food.

Ten days trial of GRAPE-NUTS shows grand results, especially in cases of brain-fag or nervous prostration. Trial proves.

Wood's Seeds.

Crimson Clover

Sown at the last working of the Corn or Cotton Crop,

can be plowed under the following April or May in time to plant corn or other crops the same season.

Crimson Clover prevents winter leaching of the soil, is equal in fertilizing value to a good application of stable manure and will wonderfully increase the yield and quality of corn or other crops which follow it. It also makes splendid winter and spring grazing, fine early green feed, or a good hay crop. Even if the crop is out off, the action of the roots and stubble improve the land to a marked degree.

Write for price and special circular telling about seeding etc.
